LETTER OF RECOMMENDATION

It brings me great pleasure to suggest Diddi Bhargav for admission to the Master of Science programme at your university. Bhargav and I collaborated closely at Cognizant Technology Solutions where I served as his Home Manager for more than 18 months.

Bhargav has shown exceptional talent and a great work ethic throughout his time at the company. He was a significant asset for every client engagement because of his excitement for taking the initiative and his preparation for every encounter. He completed a variety of duties that reduced overhead expenses and saved time for the business.

I've noticed that Bhargav is a self-starter, interested, and a good listener who wouldn't hesitate to attempt something new. He is capable of doing his work with little direction, and he never thinks twice to seek for assistance when it is necessary to accomplish his goals. He is incredibly adaptive, and I have observed him picking up new ideas outside of work hours to add fresh perspectives to problem-solving.

He possesses the knowledge, aptitude, drive, and mental fortitude necessary to succeed in graduate school and the world of research, in my opinion. He will be a valuable member of any research team due to his willingness to work collaboratively and his strong desire to contribute something fresh. Therefore, I wholeheartedly support Bhargav's application to your programme, which he so desperately wants to join. The achievement of his career and personal growth goals would be significantly aided by your acceptance. If you need any additional help, please don't hesitate to get in touch with me.

Thanks,

Munagala Naveen Kumar Reddy
