LETTER OF RECOMMENDATION

I'm glad to offer a recommendation for Aravind Reddy . He was a brilliant associate who I got to know well. I can evaluate him professionally and personally based on our interactions over the 1.5 years. I kept track of his progress as a team lead .

Aravind has been exceedingly hopeful and enthusiastic about learning new things throughout his term at the company. He can complete his tasks with minimal guidance and never hesitates to ask for help when required to achieve his objectives. He consistently shows enthusiasm in whatever he undertakes. He executes his responsibilities with a great deal of dedication as a person who is constantly willing to accept responsibility.

His collaborative attitude and deep desire to bring something new to the table will make him an asset on any research team. He is effective and adds a lot of individuality to his work. I may say that he has a really fluid way of expressing his ideas. I can state with confidence that if given the chance, he will prove himself in all of his undertakings thanks to his talent, hard work, and strong desires. I wholeheartedly suggest him for higher education because I have no doubts about his ability to succeed in graduate courses.

Thanks,
Vijay Chippe.
