## **LETTER OF RECOMMENDATION**

It brings me great pleasure to introduce **Mr. Thippanuri Sai Aravind Reddy**, Reg. no: 11712468 to your university, which is one of my students. I've known him for the past four years and I've instructed him in the core subject "Object Oriented Programming" in the 2nd semester. His performance on this subject has been admirable. I want to emphasize a few things through my letter that might be helpful in your evaluation procedure.

Aravind Reddy has always demonstrated a strong interest in hands-on learning methods throughout his academic career. He firmly discussed his goals for higher education throughout a number of meetings with me concerning courses and research. He has demonstrated great competence in theory and practical sessions as well. This is evident from the keen interest he evinced during four years of theory and practical sessions.

In addition to his accomplishments in the classroom, Aravind Reddy has a stellar track record in our university's history of national-level American football competitions. He consistently shows enthusiasm in whatever he undertakes. He executes his responsibilities with a great deal of dedication as a person who is constantly willing to accept responsibility.

I really believe that Aravind Reddy will bring your class and the university as a whole his special brand of enthusiasm, optimism, passion, and endless creativity. I thus give him my strongest recommendation for admission to the course he wants to take at your university. Please do not hesitate to get in touch with me if you have any queries concerning this advice; I will be happy to try and assist.
