## **LETTER OF RECOMMENDATION**

I feel happy to recommend **K. Krishnadevaraya** for his admission to the Master's Program in Computer Science at your renowned university. As a student he is very dynamic. Apart from being a good student he is a great performer in extracurricular activities held at our university.

He has got a charming attitude. He is supportive of his friends. He served as a leader too. As a leader he undertook the responsibilities of organizing and managing various kinds of technical fests, cultural and arts programs.

I am glad that he wants to continue his studies after his B. Tech. This is certainly a good step as it can help him a lot with quenching his thirst for higher studies. This will make it easy for him to explore new technologies and upgrade his skills to a limitless extent. He will always have my best wishes.

If I can be of any further assistance, or provide you with any further information, please do not hesitate to contact me.
